

Biography: Jim Rehage, P.G., PhD

Austin Remediation Department

URS Corporation

Current Position

Jim Rehage is a Senior Geoscientist in the Austin Remediation Department. Dr. Rehage has served as technical lead on four remediation projects and assisted on several other Texas state Superfund sites.

Prior Experience and Education

Dr. Rehage has a Bachelor of Science Degree in Forestry and Wildlife Management and a Master of Science Degree in Agronomy (Soil Science) from Louisiana State University, Baton Rouge, Louisiana and a Doctor of Philosophy in Agronomy (Soil Science) from Texas A&M University, College Station, Texas. He worked for K.W. Brown & Associates for several years and then joined Radian Corporation's Environmental Chemistry Department in 1998. Radian was acquired by URS in 1999. Dr. Rehage has over 28 years of experience and a multi-faceted background that includes numerous projects that address the management of solid wastes, contaminated soils, and groundwater for both public and private sector clients. His experience includes site investigations, feasibility studies, treatability testing, engineering design, remedial construction oversight, and facility operation and maintenance.
